

Deadline For Driver's License Is Nov. 14

Examinations Will Be Required For Everyone After Time Limit Expires

Montgomery, Ala.—An appeal to all Alabama motorists to file application for their 1940 driver's license as soon as possible and, in any case, before midnight of November 14, which marks the deadline beyond which penalties for delinquency will apply, has been issued by Director T. Weller Smith of the State Department of Public Safety, coupled with the reminder that holders of 1939 licenses who fail to apply for their 1940 one within the time limit, will have to take the prescribed examination before the new license can be issued to them.

The fact that they have a 1939 license, he said, exempts them from having to take the examination for a 1940 license, but this exception holds good only through November 14, and that beginning on November 15 the exemption the old license now provides in that respect, will no longer exist. "For that reason," the director added, "I sincerely hope all 1939 driver's license holders will apply for their new one before the deadline comes and goes. The sooner they apply for it the better, otherwise they may find themselves among those last minute applicants on the tail end of a waiting line at the probate office when the doors are closed on November 14."

Many applicants for 1940 driver's licenses will not actually receive their license cards until some time after November 14, Director Smith cited, but the receipt they receive when they file their application and pay the required fee will serve temporarily as a driver's license for a period of 45 days after the date it was issued, or until their 1940 licenses reach them by mail.

Dr. Lorraine Pierson Attends Meeting In Washington

Dr. Lorraine Pierson left yesterday for Washington at the invitation of Secretary of State Cordell Hull to confer Thursday and Friday with a group of nationally known educators and business leaders for a conference on Inter-American Relations in education. "I hope you may find it possible to come to Washington and make available to these discussions your judgment and suggestions," Mr. Hull wrote in his letter of invitation. Dr. Pierson has been sponsor for many foreign students who have attended college at Montevallo, and as their mentor during their stay in America she has worked closely with the Institute of International Education. In choosing Dr. Pierson as a consultant, Secretary Hull took into account this phase of her teaching activity.

She has had unusual success adjusting the foreign students to their new academic environment. It is on this point that Dr. Pierson's advice is to be sought, as well as on the more general topic of the foreign student in the United States.

This year four foreign students were slated to attend Alabama College, but the outbreak of war prevented the French and German girls from coming.

ARMISTICE PROGRAM AT 10:30 A. M. SATURDAY

The Armistice Day program will be given at 10:30 a.m. Saturday at Palmer Hall.

Mr. R. H. Mangum, of Birmingham, will be the speaker.

Music numbers will include selections by the Montevallo High School Band and a solo by Miss Edith Dees.

A most cordial invitation is extended to the people of the community to attend the exercises.

Armistice Day

To Faculty and Students:

The local post of the American Legion will hold its Armistice Day Program in Palmer Hall on Saturday morning of this week at 10:30 o'clock. Over the years the College has cooperated with the American Legion on this occasion.

Since Armistice Day of this year falls on Saturday, the program does not seem to justify a call for a convocation extraordinary. However, it is hoped sincerely that all members of the faculty and all students who may be on the campus will feel it their obligation to attend these exercises. In these days when the earth is sorely tried with all the evils of war and when democratic government is challenged almost from every angle, it would seem that we who live in a free land would wish to devote a brief period of time to renewing our pledges of loyalty to our own country and to a tribute of respect to the men and women of America who made the sacrifices necessary in connection with our participation in the late World War.

The address on Saturday morning will be made by Honorable Robert H. Mangum of Birmingham. Mr. Mangum is a forceful and delightful speaker. The exercises will not last longer than one hour.

Signed:

A. F. HARMAN, President

The above is reprinted from this week's issue of Alabama College Bulletin. The Legion sincerely appreciates the expression of Dr. Harman addressed to faculty and students of Alabama College. We repeat his statement here, adding thereto the wish of the Legion that all people of the town and community will attend the program.

Unemployment Benefit Payments Made In Shelby County

Montgomery, Ala. — Jefferson County collected the largest amount in unemployment benefits and Lawrence received the smallest amount in September, according to the county breakdown of benefit payments made public today by Judge John D. Petree, director of industrial relations. Total payments in September were \$387,948. Jefferson County beneficiaries were paid \$119,928 while payments in Lawrence County totaled only \$129.

In Shelby County total payments was paid to persons who were totally unemployed and \$1,129.84 to persons who were partially unemployed.

Walker County received the second largest amount from the unemployment trust fund, \$21,613, and Mobile the third largest amount, \$21,303. Other counties collecting benefits of more than \$10,000 follow: Calhoun, \$17,471; Wilcox, \$14,831; Etowah, \$14,659; Montgomery, \$10,676; and Tuscaloosa, \$10,329.

Legion Auxiliary To Hold Public Meeting

The American Legion Auxiliary will hold an open public meeting at the Elementary School Thursday evening, November 16, at 7:30 o'clock.

The program will be in the interest of the work of the Tuberculosis Association in Shelby County, which is sponsored by the Auxiliary.

Mr. K. W. Grimley and Dr. James E. Brakefield, of Birmingham, will be the guest speakers. Dr. Brakefield is president of the Alabama Tuberculosis Association, and Mr. Grimley is executive secretary of the national association.

In addition to their addresses these gentlemen will present motion pictures illustrating the work of the Tuberculosis Association.

The Auxiliary urgently requests attendance of everyone who may be interested in the anti-tuberculosis program. All of the different organized groups of the community will be specially requested to send an official representative.

POST OFFICE TO BE CLOSED NEXT SATURDAY

The Montevallo post office will be closed next Saturday for observance of Armistice Day. The window will be open from 9 to 9:30 a.m. only. All other business will be suspended except the usual dispatch of mail.

IN THE EGG BUSINESS IN A "BIG" WAY

Cecil Wells is smashing all records known to the egg business. He has invented a breed of hens that lay eggs of enormous size.

He was going around town this week taking orders for Christmas eggs, and showing as a sample one that weighs 6 ounces, and measures 10½ inches around the long way and 8½ inches the short way.

That's a good idea you got there for Christmas, Cecil. Just enough nog to match one of those eggs would make some Christmas, to be sure.

STUDY CLUB TO HOLD SALE OF BLIND-MADE GOODS

The Montevallo Study Club will have its annual sale of blind-made goods November 15 and 16 at the Little Shop of Personal Service. Last year the club women of the state sold over five thousand dollars worth of blind-made goods. We are eager to do our part in this worthwhile project, so please come and buy from us.

RED MEN TO CELEBRATE WITH PICNIC AND BARBECUE

Circulars have been widely distributed advertising the picnic and barbecue sponsored by the Red Men in Montevallo for Armistice Day next Saturday.

The program as announced includes music, parade, and public speaking. The list of speakers is Yelverton Cowherd, Judge G. C. Boner, M. D. Friedman and William Mitch, all of Birmingham.

Everybody is invited to attend. There will be a dance at the Legion Hut Saturday night, and the little Crosley automobile will be given away Saturday afternoon.

Art Center Exhibits Alabama Artists' Work

The Art Center of Alabama College is sponsoring November 5-18 an exhibition of paintings executed in water color by Alabama artists. This continues the policy established last year to present the work of local artists to students and to help the consumer of art to develop an understanding and appreciation of this work. The paintings are on exhibition in Bloch Hall.

Paintings by Frank Applebee, Maltby Sykes, and Charles LeClair were purchased by the art department from the exhibitions held last year. The department plans to make a permanent collection of work by artists in this state.

Red Cross Roll Call Plans Announced For County

College Receives Improvement Grant

Extensive paving improvements and further landscaping of the 106-acre campus of Alabama College will be undertaken immediately, as a result of a new allotment of \$14,100 from the Works Projects Administration, President A. F. Harman announced today. News of the additional grant was contained in a telegram from Congressman Pete B. Jarman. This new amount supplements previous grants to the Montevallo institution which have bade possible an amphitheatre, new drives and walks, as well as other substantial additions to the college physical plant. Landscaping will center around the new buildings—Comer Hall for classrooms, and Tutwiler, a new residence hall—which are now nearing completion. Other outdoor improvements will be undertaken in the vicinity of Reynolds Hall, which is being converted with PWA assistance into a college union building.

Annual Drive Will Take Place Between Armistice Day And Thanksgiving

The annual Red Cross Roll Call for membership will be conducted as usual this year from Armistice to Thanksgiving.

This week The Times brings to you the special Red Cross color section which is designed to remind the people of West Shelby of the approaching Roll Call for membership in "the great volunteer relief agency of the United States, to save lives, give relief in disaster, fight epidemics, aid veterans and service men, and serve the nation in all emergencies."

We are sure the people of Montevallo will not need to be reminded of the help that came to our community from the Red Cross last spring following the storm that visited our town in April. That instance was a sample of what the Red Cross is doing all over our country when disaster strikes. Such work is made possible only by the memberships which people voluntarily take in the annual Roll Call.

Miss Myrtle Brooke, Shelby County Chapter chairman, states that Senator Karl Harrison, of Columbia, has been designated to serve as chairman of the Roll Call organization in East Shelby. The organization for West Shelby, she says, will be completed and ready for announcement next week.

Remember, if you are one who can spare a dollar, it is your duty to join the Red Cross. There is no excuse or argument about that and you should be ready to enlist when the solicitor calls on you.

Landowners Asked To Help Prevent Forest Fires

The 4-H Club boys of Shelby County are making an intensive drive to prevent woodland and idle land from being burned over. Many fires have been reported in Shelby County this fall.

Woods fires, according to experimental tests, prevent natural reforestation of desirable trees and allow weed trees to dominate the stand. The land is subject to severe erosion by removing ground cover that holds the soil in place.

Since Shelby County has 49.5 per cent of its land in woods, the land owners and farm workers should endeavor to prevent this thief from entering the woods; we all know that fire is our greatest thief.

Cooperate with the club boys by signing the fire prevention agreement below, and assist them in every way in caring for the forests that will be theirs in a few years. Should they not be cared for as we were?

We, the undersigned land owners and tenants and others, agree with each other in Montevallo community that:

1. We will not set fire to our woodlands, sedge fields, or other lands or such lands under our care in need of reforesting, nor permit them to be burned if it is possible and practical to prevent it.

2. We will assist our neighbors and other signers of this agreement in preventing outbreaks of fires on their lands and will assist them as far as possible in suppressing such fires as may accidentally occur.

3. We will, to the best of our ability, and as far as practical, adopt conservation practices which will leave the land and forests of this community in such condition as will enable our 4-H Club members and other future farmers who will inherit these farms to carry on under as favorable economic conditions as possible.

4. We will assist in prosecuting and punishing any person who is responsible for the burning over of woodland not rightfully owned by himself, whether the fire be intentional or through carelessness.

Dr. Kilpatrick Pays Tribute To Schools

In the current special edition of The New Republic, built around the theme, "The Promise of American Life," Dr. William H. Kilpatrick pays tribute to experiments in progressive education now being conducted in Montevallo schools under auspices of Alabama College. This special number has drawn contributions from such men as Dr. Kilpatrick, Thomas Mann, Lewis Mumford, Henry Wallace, and Charles A. Beard. In his article, entitled "The Promise of Education in America," Dr. Kilpatrick discusses John Dewey's famous principle that "we learn by doing." On this principle the Montevallo schools are making a practical effort to give students definite opportunities to learn better ways of doing things this life will require them to do. This program enables students to use subject matter to make better homes, get better recreation, better health, and happier communities.

Dr. M. L. Orr, who heads the education department at Alabama College, has supervised the new projects in progressive education at Montevallo since their inception several years ago. The work at Montevallo is sponsored by the Southern Association of Colleges and Secondary Schools. This association is so interested in this school that its member colleges have agreed to accept graduates from the Montevallo schools upon recommendation of the faculty without the usual Carnegie unit requirements. It also sends many professional educators to assist with the work as it goes forward.

STORES WILL OBSERVE HOLIDAY MONDAY

The Stores of Montevallo will remain open Saturday, November 11, but will be closed for the Armistice holiday on Monday, November 13.

You are urged to take note of this arrangement and secure enough rations Saturday night to last you till Tuesday.

STUDIOSIS SALE OF BLIND-MADE GOODS

A sale of blind-made goods will be sponsored by the Studiosis Club at their November meeting. The sale will be opened in the East Parlor of Main Dormitory at 6:20 p.m. on Tuesday, November 14. Smocks, aprons, luncheon sets, towels, and pillow cases will be offered at very reasonable prices. All are cordially invited to attend this sale of attractive, usable articles.

A YEAR-ROUND DIVIDEND

Dividends are going to be declared this Christmas. They are dividends that are paying off in the knowledge that a grand humanitarian job has been well done.

Doubly well-done, too, for the person who purchased Christmas seals in 1938 has brought cheer and hope to thousands of men, women and children. Cheer to those who are ill with tuberculosis; well-founded hope to those who wish to protect their homes from this once deadliest of all diseases. A purchaser of seals gets a feeling of great satisfaction in his knowing that he has an important part in a winning crusade.

This cheer, this hope, on the part of the receiver, this satisfaction on the part of the giver, all hinge around the Christmas seal. If a person were able to figuratively follow his dollar or two with which he purchased seals, he would have to hustle at top speed, 365 consecutive days and nights, in order to keep pace with the accomplishments his generosity has made possible.

Seals combined with seals, dollars combined with dollars, are paving a one-way highway to health—a highway which the doctor and the layman are constructing. The layman furnishes the material, the doctor uses the material.

Medical research is just one important accomplishment. In addition, there are sanatoria filled with men, women and children who are looking forward, cheerfully, to the day when they will be discharged. Christmas seals have been a vital factor in taking the deadliness out of tuberculosis. In a sanatorium a person gains the upper hand over the germs that, not so many years ago, meant certain, and often times, quick death.

And how did the people get to the sanatorium? Their family physicians, along with seal-financed clinics, nursing services, tuberculosis-testing and X-ray campaigns—all could have combined to discover the TB germs. Thanks to the Christmas seal, people are learning more and more about tuberculosis, its cause, cure and prevention and they are taking advantage of this knowledge. Homes are healthier and homes are happier because of this knowledge.

Another dividend in health and happiness will be payable a year from now if people will purchase Christmas seals. In fact, such dividends are being paid every single day of the year—dividends to those ill with tuberculosis and dividends to the buyer of Christmas seals.

The American Legion Auxiliary is sponsoring the Christmas seal campaign in Shelby County. Mrs. M. P. Jeter is chairman of the seal sale committee. Soon the seal sale will be completely organized. Mrs. Jeter will have all necessary information for the public ready to give out at the proper time.

Mr. Pierce A. Garrett of Calera Rt. 1 was a visitor in Montevallo Tuesday. In connection with his extensive farm operations, Mr. Garrett is a raiser of turkeys on a large scale. He says he has a fine lot of birds, fat and sassy, ready for Thanksgiving. A card to Mr. Garrett now will reserve your turkey.

SUNDAY SCHOOL HOLDS HALLOWEEN PARTY

On Halloween night the Junior Department of the Baptist Sunday School had a spook party at the home of Mr. and Mrs. J. P. Thomas. Fortunes were told, games played, and refreshments served to thirty guests.

The Intermediate B. Y. P. U. had a weiner roast Friday night, November 3. The weather got so rough that instead of having it at the Thomas spring as planned, the place was changed to the Thomas living and dining rooms. After eating everybody enjoyed the singing by the firelight.

Miss Ruth Lawrence Is Reported Safe

Robertsdale, Ala., Nov. 4 — Miss Ruth Lawrence, former Foley school teacher, who has been a missionary in Warsaw, Poland, for the past several years, was reported safe today. Word to this effect was reported received here by her sister, Mrs. Carl Schlick, of Foley, and her father, Rev. J. O. Lawrence, former pastor of the Prichard Methodist Church.

Concern had been felt for Miss Lawrence's safety because no word had been received from her since August 25. On this date a letter from her stated that she intended continuing her church work as long as possible despite Germany's invasion of Poland.

Miss Lawrence is a sister of Dr. C. O. Lawrence of Clanton, formerly of Calera.

BIBB COUNTIANS FIGHT ACID SOIL

Centreville, Ala. — Bibb County farmers have declared war against extremely acid soils, reports R. S. Kimbrough, county agent. Already this year 59 farmers have received 196 tons of ground limestone which is to be applied to crop and pasture land. The application of this material by different farmers varies from 1,000 to 2,000 pounds per acre.

Requests are made daily at the county agent's office by producers for limestone and it is expected that over 400 tons will be delivered in the county this year for use on over 600 acres of crop and pasture land, Kimbrough said.

Student enrollment at Auburn has increased more than 100 per cent in the last seven years. Enrollment today has reached 3,475, while the total enrollment for the depression years 1932-33 was 1,721.

Business Educators To Convene For Three-Day Session

The Southern Business Education Association will convene in Jacksonville, Florida, on November 30 for a three-day session built around the central theme, "Improvement of Business Education in the South."

Dr. John R. Gregg, founder of the Gregg shorthand system, has indicated that he will be present as honor guest.

The Southern Business Education Association has held several meetings in Birmingham in past years. Mrs. Gertrude DeArmond of Wheeler Business College, Birmingham, is past president, and Miss Lelah Brownfield, professor of secretarial science at Alabama College, is Alabama representative on the executive board.

Among the outstanding leaders in the field of business education who will appear as speakers are Professor Frederick Nichols, head of the department of business education, Harvard University, and president of the National Council of Business Education; Professor Paul S. Lomax, head of the department of business education, New York University; Professor Hamden L. Forkner, head of the department of business education, Teachers College, Columbia University; Mr. B. Frank Kyker, chief, Business Education Service, Office of Education, Washington, D. C.; Professor B. R. Haynes, head of the department of business education, University of Tennessee, and Dean William S. Taylor, College of Education, University of Kentucky.

Subjects of the principal addresses are, "Clerical Ability Tests, with Implications for Business Education," "New Emphases in Business Education," "Youth Problems in Business Education in the South," and "The Place of Private Business Schools in Southern Business Education."

GIRL SCOUTS

The Montevallo Girl Scouts had a waffle and pancake supper November 1 and 2 at the Scout's Little House. About twenty Girl Scouts served the tables in uniform. It was sponsored by the council to raise money to help pay the debt on the Little House. During the evenings about 180 guests were served. Along with the waffles and pancakes was the food sale of cakes and cookies.

Recently the Girl Scouts in Troop 3 were happy to have a hike. We went to the college camp and when we got there we discussed how to make fires. After talking we went out to find wood enough to make three fires. When we were ready to light them we found that we had only two matches. The first one used went out, then we were ready to use our very last one. We struck it and we succeeded! After lunch we played and explored the creek.—Margaret Kennerly, Scribe.

MASONIC CONFERENCE
